

MT. LA CROSSE DRONE POLICY

Due to safety and privacy concerns, Mt. La Crosse prohibits the operation or use on or above Resort property of unmanned aerial systems, or drones, by the general public – including model aircraft by recreational users and hobbyists – without the prior written authorization from Mt. La Crosse. This prohibition includes drones used for filming or videotaping, as well as any drone use by media or journalists operating above or with the area boundaries. This prohibition extends to any devices launched or operated from Resort property, as well as any launched from private property outside of the Resort boundaries. Please contact a resort representative if you have any questions or if you seek prior authorization to operate any such devices. Any authorized operation of drones on or above Resort property will be governed by Federal Aviation Administration (FAA) rules and established by this Resort, which may include certification, training, insurance coverage, indemnification requirements, and waivers or releases of liability. Any violation of this policy may involve suspension of your access privileges to the Resort, or the revocation of your season pass, as well as confiscation of any prohibited equipment, and may subject violators to any liability for damages, including, but not limited to, damages for trespass, violations of privacy, and physical injuries to persons and/or property, as well as legal fees.

SKIING & SNOWBOARDING
